

HR Analytics Dashboard Report

Objective

The purpose of this dashboard is to analyze employee attrition and identify the key factors affecting employee retention.

Key Metrics

- Total Employees: 1,413
- Attrition Rate: 16.21%
- Average Monthly Income: 6.52K
- Overtime Attrition Rate: 30.86%

Key Insights

- Sales Representatives have the highest attrition rate.
- Employees aged 18-25 show the highest employee turnover.
- Employees with salaries below 5K are more likely to leave.
- Overtime employees have significantly higher attrition.
- Single employees contribute more to attrition than married employees.

Recommendations

- Reduce excessive overtime and improve work-life balance.
- Focus on retaining young employees through career development programs.
- Review compensation for lower salary groups.
- Implement targeted retention strategies for high-attrition job roles.

Conclusion

Employee attrition is mainly influenced by overtime, low salary, younger age groups, and specific job roles. Addressing these factors can help improve employee retention and workforce stability.
